

The 115kV Spacer Cable Transmission Solution

Introducing the Hendrix 115kV Aerial Cable Systems for Reduced ROW, Increased ROI, and Environmental Protection.

Start taking advantage of Spacer Cable in a transmission system application. This spacer cable solution for power transmission offers many benefits for utility decision makers:

- Better circuit reliability
- Reduced right of way
- Compact bundle reduces GMD, resulting in 15% lower impedance, 15% improved voltage regulation, improved end of line voltage, improved power factor, and better overall quality of service
- Used as a key component in Wildfire Mitigation strategy
- Minimizes Vegetation Management
- Build additional circuits in existing ROW
- Easier and faster ROW approvals
- Helps achieve regulatory goals in Environmental Stewardship Roadmap
- Reduced pole height
- APLIC compliant

AERIAL CABLE SYSTEMS
